

**Jamie & Lisa Ballard**, 311 Westwood Dr. Friendswood, TX 77546 (jamie.ballard@allegiancebktx.com)

Whom It May Concern:

I am writing this to thank you for your product and let you know how satisfied we are after purchasing and installing INSULTEX R6 house wrap on our home. We had new siding put on our home and took the opportunity to wrap our 35 year old home with this wonderful new product. Installation according to our contractor was simple and comparable to other products they have used in the past. This was the first time they applied this brand. Since the installation was completed in December of 2014 our Utility bill has dropped nearly 40%. We normally have high heating bills in the winter even though I live in TX due to the fact that my home is heated by electric heat and can cost me more a month than A/C in the summer. I have never had winter bills so low. Now that we are in the hot summer months and I am running a pool pump that I did not have last summer our monthly bills are still way lower than any prior years. I have been telling friends, clients and builders about the product and cannot tell you enough to make this product more and more available as soon as possible.

Thanks so much and I also want to thank my Friend Jim Kearney for referring me to your product.

Sincerely,

A large, stylized handwritten signature in black ink, appearing to read 'Jamie Ballard', written over a horizontal dashed line.
