Dear Mr. Riccelli,

I want to thank you so much for your amazing product, Insultex house wrap. I used this in 2014 on my new horse barn. My contractor was very impressed with the ease of installation and the durability over the winter. He was unable to get to the siding due to the severe winter weather. The Insultex kept the barn dry, tight and toasty all through this bad winter without any glitches. No water damage at all, even with all the ice! The insultex kept the structure warm and they were able to finish out the inside in the harshest of weather! My contractor is planning on using Insultex for all of his future house wrap projects! Last winter was much milder and the barn stayed warm and dry. The heat has been brutal last summer and this one. My horses can't wait to come in in the mornings and spend the day. The barn stays cool without the use of any fans!! The only thing I can credit is the insultex wrap.

This is truly a major advancement in house wrap! Insultex truly did all it promised and more!
