Dear Mr. Riccelli,

My friend John Richey gave me your contact information. He told me if I emailed you I might be able to purchase some Insultex.

If possible I would like to purchase 2 rolls of R-6 Insultex to finish my home attic.

I have already completed one walk-in attic space with amazing results. Since I installed two layers of Insultex, even in the oppressive Texas heat, my attic doesn't get above the low 90's. I would like to do the same thing in my other storage area.

Your product is truly revolutionary. I'm very sorry our government is treating you so unfairly. In the end, I hope right triumphs.

Best wishes for a positive ruling in your favor in the near future and all the success you deserve.

Regards,

Mike Bronson
